

## EIZO Introduces Space Saving Stand for Dual Display Environments

Matto, Japan, September 20, 2002 – To meet the demand for simple yet flexible placement solutions for dual display environments, Eizo Nanao Corporation today unveiled the LS-HM0-D. This ergonomic dual height adjustable stand holds two EIZO SlimEdge or MultiEdge thin bezel\* LCD monitors from 15” – 18.1” in size. It also incorporates several features such as 6-stage height adjustment and portrait viewing support to accommodate different placement needs.

“Seeking both greater productivity and a more streamlined desktop, many of our customers have eagerly adopted a dual display setup using our thin bezel monitors,” said Kunihiro Arata, General Manager of EIZO’s Overseas Sales & Marketing Division. “The LS-HM0-D saves additional space while giving users the freedom to configure their displays according to personal preference.”

### Summary of Features

- For use with 15” – 18.1” SlimEdge and MultiEdge LCD monitors.
- 6-stage height adjustment of 0 mm/10 mm/25 mm/40 mm/55 mm/70 mm.
- Tilt (13° up, 0° down) and swivel (5° right, 5° left) capability.
- Rotation function allows for dual portrait or portrait-landscape combination.
- Horizontal movement range of 80 mm to accommodate different panels sizes.
- Cable housing on the back of the stand.
- Color choice of gray or black.
