LCD monitors for industrial use

For Air Traffic Control

Comprehensive solutions that include main monitors for tracking aircraft flight status, auxiliary monitors for displaying air traffic control information, training monitors and specialized high-definition graphics boards for displaying air traffic control data.

High-definition graphics boards
Main monitors for air traffic control

For Home Entertainment

LCD monitors for entertainment systems using proprietary resolution technology, such as the world's first shade visibility improvement function, which enable users to enjoy the maximum impact of digital content on their PCs, game machines and AV equipment.

Entertainment monitors

For Amusement Markets

We design and manufacture LCD monitors installed in pachinko equipment. These models combine the Group's hardware technology, gained through the design and manufacture of computer monitors, with amusement software development technology to offer realistic expression, stories with a strong gaming feel, and lovable characters toward our goal of delivering products that become customer favorites year after year.
