

## **EIZO Purchases New Office Building as Company Growth Accelerates the Demand for Larger Engineering and Production Spaces**

- *EIZO Rugged Solutions will be fully moved into the new office space by January 9, 2023.*
- *The new building space provides three times the square footage for manufacturing, engineering labs, testing labs, and collaborative meeting spaces.*

**Orlando, Florida, January 10, 2023** – EIZO Rugged Solutions Inc., a provider of ruggedized graphics, displays, and video electronics hardware, announced that it has moved all of its operations to its newly acquired 90,000 square ft. building at 482 S. Keller Road, Orlando, Florida 32810. The new facility is about 5 miles from its current location and in the Maitland Business District.

This expansion, driven by growth and increased market demand for EIZO Rugged Solutions products and capabilities, will better position the company to serve its customers and partners with increased production capacity and a more extensive product portfolio.

The company has tailored the first floor of the 3-story building, emphasizing process efficiencies while promoting collaborative environments with several new engineering labs, conference rooms, and a lakeside pavilion for pleasing change in scenery. The space hosts an open climate-controlled production area adjacent to EIZO Rugged Solutions' in-house MIL-STD-810 testing areas, as well as a secure inventory and depot warehouse.

The company values its staff, partners, customers, and the markets it serves. Selwyn Henriques, president & CEO of EIZO Rugged Solutions Inc. states, "We hope all of our stakeholders share in our excitement as we enter the next chapter for EIZO Rugged Solutions. We look forward to hosting visitors at our new facility as we prepare for a successful 2023."
