EIZO's Chinese Group Company Commences Operations at New Facility - Doubling Production Capacity for Sales Expansion

Hakusan, Japan, March 25, 2025 - EIZO Corporation (TSE: 6737) is pleased to announce that EIZO Display Technologies (Suzhou) Co., Ltd., a group company specializing in the development, manufacturing, and sales of monitors for the Chinese market, has successfully relocated to a new facility and officially commenced operations.

The new facility offers more than double the floor space of its predecessor, with expanded office areas for research, development, and administration, as well as increased space for factory and warehouse operations. This expansion will significantly enhance production capacity, supporting the company's growing sales in China. Production is scheduled to begin in April 2025.

EIZO Display Technologies (Suzhou) Co., Ltd. began operations in Suzhou in 2010, with a strategic focus on the Chinese market. Since its inception, the company has steadily expanded its business, achieving significant

growth in key sectors, particularly within the healthcare market.

As China's population continues to age, there are increasing efforts to improve the quality of medical equipment, which is expected to drive sustained growth in the healthcare market. Additionally, with numerous airport construction projects planned through 2030, ongoing demand in the air traffic control market is anticipated. The recent relocation of the factory and expansion of production capacity will position EIZO to effectively meet this growing demand in China while continuing to expand its business in specialized applications.

Overview of New Facility and Infrastructure:

- Location:** Building 17, Phase VI of BioBAY, 39 Weixin Road, Suzhou Industrial Park, Jiangsu, 215127 P.R.China
- Floor Area:** 8,319 m²
- Functions:** Production lines, warehouse, offices for management, development, and sales departments
- Products:** Monitors for specialized applications, including healthcare, air traffic control, & creative work
- Investment:** JPY 400 million approx.
