## Notice Regarding the Policy on Holding Cross-Shareholdings

**Hakusan, Japan, January 30, 2026** - EIZO Corporation (the “Company”) hereby announces that, at the Board of Directors meeting held on January 30, 2026, it resolved its policy on holding cross-shareholdings, as follows:

### 1. Policy on Cross-Shareholdings

The Company holds shares in certain business partners as policy-held shares when it determines that such holdings contribute to enhancing long-term corporate value, for example, by maintaining robust business relationships and building long-term trust. The Company evaluates the qualitative aspects, such as the purpose of holding, and quantitatively assesses the benefits of holding, including transaction terms, share price, and dividend income, to ensure the holding is justified in light of capital cost, and reviews on an individual basis whether continued holding or divestment is appropriate.

Under this policy, the Company will reduce cross-shareholdings for which the significance of holding has diminished and aim to improve capital efficiency. Accordingly, the following targets are set for the total amount of cross-shareholdings:

Ratio of cross-shareholdings to consolidated net assets:

- Reduce to less than 15% by the end of March 2028
- Reduce to less than 10% by the end of March 2031

Proceeds from such divestments will be allocated to growth investments, primarily M&A, and to the enhancement of shareholder returns.

**2. Actions in the Current Fiscal Year (ending March 31, 2026)**

Of the Company's cross-shareholdings, those for which the significance of holding has diminished will be sold during the current fiscal year ending March 31, 2026, or, subject to sale within a specified period, reclassified from cross-shareholdings to holdings for pure investment purposes.
