

## **EIZO to Offer Matrox MED Series Graphics Boards with its RadiForce Medical Display Systems**

ECR, Vienna, Austria, March 7, 2003 – Eizo Nanao Corporation today announced it will offer MED Series graphics boards from Matrox Graphics Inc. with its RadiForce medical display systems beginning in April. Med Series boards include a variety of color and monochrome models with analog and digital signal support, and provide a wide range of resolution support from one to five megapixels.

EIZO already offers the VREngine family of graphics boards from RealVision, Inc for several models in the RadiForce Series. By providing graphics boards from two industry leaders, EIZO can deliver a wide range of solutions to meet the medical imaging requirements of its customers.

EIZO is currently exhibiting its RadiForce Series of medical display systems at the European Congress of Radiology (ECR) in Vienna. All monitors at the EIZO booth utilize Matrox MED Series and RealVision VREngine graphics boards. EIZO is located in Expo A, Booth 125.

### **RadiForce Series**

Already the leading name in flat panel monitors for professional corporate, financial and graphics users, EIZO's RadiForce Series brings the same expertise to the medical field by providing quality performance in a wide range of monitors and accessories. The RadiForce Series presents 1, 2 and 3 megapixel LCD monitors in both grayscale and color - a line-up which takes full account of medical institutions' need for monitors with different performance capabilities. Available in various sizes and configurations, they provide the consistent, stable image quality required for confident appraisal and diagnosis.

### **About Matrox Graphics Inc.**

Matrox Graphics Inc., the leading manufacturer of professional graphics solutions, has been delivering high-quality, innovative 2D/3D and video graphics accelerators for more than a quarter century. Pioneer of the trend-setting DualHead® technology, Matrox is a graphics chip designer and board manufacturer whose products have been awarded over 1,000 times worldwide for their superior image quality, practical ingenuity and unwavering stability. In July 2002, Matrox was elected as a voting member of the OpenGL® Architecture Review Board (ARB). A privately held company headquartered in Montreal, Canada, Matrox has international offices in the United States, the United Kingdom, Ireland, France, Germany, Italy, Hong Kong, and Taiwan. Information on Matrox products, drivers, technical support and more can be found at: [www.matrox.com/mga](http://www.matrox.com/mga).

### **About EIZO**

Eizo Nanao Corporation is a leading global manufacturer of high-end visual display products with a wide product range that includes LCD, CRT, and plasma monitors, and Windows-Based Terminals (thin clients). The image quality, long-term reliability, and innovative features of EIZO monitors make them the products of choice in many financial trading rooms, hospitals, back
