

EIZO Opens New R&D Center at Headquarters in Japan

Hakusan, Japan, March 28, 2007 – Eizo Nanao Corporation (TSE: 6737), a manufacturer of high-end visual display products, today announced the opening a new center dedicated to research and development at its corporate headquarters in Hakusan, Japan. The 2.5 billion yen (21 million U.S. dollars) six floor building has a total floor space of 13,000 square meters and capacity of 600 personnel.

EIZO has identified continuous investment in R&D as a key factor in achieving the goals set forth in its mid-term business plan* (2006-2008). With the opening of this new center, EIZO's R&D staff will be centralized in one location, allowing the company to improve efficiency, reduce development times for new products, and increase competitiveness.

New R&D Center, Hakusan, Japan

About EIZO

Eizo Nanao Corporation is a leading global manufacturer of high-end visual display products with a wide range of LCD monitor systems. The image quality, long-term reliability, and innovative features of EIZO monitors make them the products of choice in many financial trading rooms, hospitals, back offices, and design studios.
