

EIZO Releases Touchscreen Version of Latest LCD-WBT Product *eClient® 630LT-GR offers simple data input with finger and pen touch support*

Matto, Japan, March 18, 2002 – Eizo Nanao Corporation introduced the eClient 630LT-GR, a touchscreen version of the eClient 630L, its latest all-in-one 15-inch LCD and WBT (Windows-based Terminal) product. The eClient 630LT-GR comes with an analog resistive type panel that accepts touch input from both a finger and a stylus pen. Well-suited to a wide variety of applications and industries such as manufacturing, point-of-sales, and kiosks, the eClient 630LT-GR combines the convenience and simplicity of server-based computing with touch panel technology.

“Our eClient line offers innovative and cost-effective WBT products,” said Kunihiro Arata of EIZO’s International Sales & Marketing Division. “The addition of the eClient 630LT-GR brings these same benefits to other environments where mouse and keyboard input are not always practical.”

Built to withstand the rigors of everyday use in a wide array of environments while providing optimal performance, the touchscreen has a touch life of over one million touches, optical clarity of 79%, and an initial touch down speed of 14 ms. Free mount capability allows attachment of the panel to a swing-arm or wall allows the user to position the monitor as necessary.

Based on the recently released eClient 630L, this touchscreen version contains all of the same performance specifications, peripheral ports, and bundled software. These include:

- 300 MHz CPU and 100 MHz frontside bus.
- 32 MB of flash and 64 MB of RAM memory.
- Support for both Microsoft’s Remote Desktop Protocol (RDP) and Citrix’s Independent Computing Architecture (ICA®) protocol.
- Server operating system support for Microsoft® Windows® NT™ 4.0 TSE, Windows 2000 Terminal Services, and Citrix MetaFrame™ 1.8 / 1.8 + Feature Release 1 / XP.
- Bundled Microsoft Internet Explorer browser for the Windows CE operating system.
- Serial port (RS-232C), parallel port, and 10/100Base-TX Ethernet connector.
- PCMCIA Type-II slot for LAN/WAN connectivity and dial-up support.
- Digital LCD panel with built-in speakers, 450:1 contrast ratio, 240 cd/m² brightness, and 160° horizontal and 150° vertical viewing angles.

For remote management of each eClient terminal and lower TCO (Total Cost of Ownership), EIZO offers optional Network Administrator (Version 1.2) software. Network Administrator allows system administrators to configure and update client settings, specify or change client IP addresses, automatically update firmware, and turn on the power through Wake-on-LAN support.

The eClient 630LT-GR keeps energy costs low by consuming only 45 watts of power during

normal operation and less than 5 in power save mode for compliance with EPA ENERGY STAR® Program and Energy 2000 requirements.

Availability

The eClient 630LT-GR and Network Administrator Version 1.2 are now on sale worldwide through EIZO's network of international distributors. The cabinet comes in a choice of gray or black.
