

EIZO Receives 12 “Good Design” Awards from Japanese Government

Ministry of International Trade and Industry recognizes design excellence of EIZO products for 6th consecutive year

Matto, Japan, October 16, 2001 – Eizo Nanao Corporation is pleased to announce that 12 of its products were selected earlier this month for the prestigious “Good Design Award” by the Japanese Ministry of International Trade and Industry (MITI). This marks the 6th consecutive year MITI has bestowed this award on EIZO products, and the single largest total EIZO has received in one year. The Good Design Award panel of judges cited the, functionality, innovative external design, and broadband-ready capabilities of the various EIZO products in selecting them for this award. Furthermore, they also praised the consideration for the natural environment and user comfort inherent in the design of these products.

About the Good Design Award

Good Design Award Mark

The Good Design Award is given annually by MITI in recognition of products in various categories from electronic goods to household appliances that incorporate not only an original and outstanding design, but also demonstrate a high level of quality, innovation, and usability. Over 25,000 products have won this award since its inception in 1957. The Good Design Award Mark is recognized throughout Japan as a symbol of design originality, quality, ease of use, and superior functionality and performance.
