

Independent Assurance Report

Mr. Masaki Ebisu
President & COO
EIZO Corporation

We, SOCOTEC Certification Japan (hereafter "SOCOTEC"), have performed a limited assurance engagement, in response to the entrustment from EIZO Corporation (hereafter "the Corporation"), in order to provide an opinion as to whether the subject matter information ("Summary table of GHG emission" and "Water resource usage calculation result" (period: 1 April 2023 to 31 March 2024)) of the Corporation meets the criteria in all material respects.

1 Subject Matter Information and Criteria

The subject matter information for our assurance is "a report on greenhouse gas emissions (Scope 1, Scope 2 (Location-based and Market-based)), all other indirect greenhouse gas emissions that occur in a corporation's value chain (Scope 3 (Categories: 1, 2, 3, 4, 5, 6, 7, 11, 12, 13, 15)) in accordance with GHG protocol "Corporate Accounting and Reporting Standard", "Corporate Value Chain (Scope 3) Accounting and Reporting Standard" and "GHG Protocol Scope 2 Guidance", "Energy consumption and Water resource usage" covering the operations and activities of the Corporation and its consolidated companies in Japan and overseas (6 domestic subsidiaries and 11 overseas subsidiaries) (in the case of water resource usage, Headquarters of the Corporation and 1 subsidiary in Japan (2 factories)) described in "Summary table of GHG emission" and "Water resource usage calculation result" (period: 1 April 2023 to 31 March 2024). The criteria for preparing subject matter information are "GHG emissions calculation procedure (FY2023)" and "Calculation procedure of water resource usage (FY2023)".

Subject matter information period: 1 April 2023 to 31 March 2024			
<u>GHG emissions</u>		<u>All other indirect GHG emissions that occur in a corporation's value chain</u>	
Scope 1:	781 t-CO2e	Scope 3: 314,995 t-CO2e	
Scope 2: location-based	5,622 t-CO2e	Breakdown (t-CO2e)	
market-based	2,685 t-CO2e	Category 1: 145,217	Category 2: 5,968 Category 3: 1,242
		Category 4: 3,035	Category 5: 310 Category 6: 324
		Category 7: 1,114	Category 11: 147,860 Category 12: 819
		Category 13: 259	Category 15: 8,847
<u>Water resource usage (Water intake) by location</u>		<u>Energy consumption</u>	
EIZO Corporation Headquarters	21,838 m ³	16,823	MWh
EIZO MS Corporation Head Office / Hakui Factory	4,179 m ³		
EIZO MS Corporation Nanao Factory	2,896 m ³		

2 Management Responsibility

"Summary table of GHG emission" and "Water resource usage calculation result" (period: 1 April 2023 to 31 March 2024) was prepared by the management of the Corporation, who is responsible for the integrity of the assertions, statements, and claims made therein (including the assertions over which we have been engaged to provide limited assurance), the collection, quantification and presentation of all data and information in the report, and applied criteria, analysis and publication. The management of the Corporation is responsible for maintaining adequate records and internal controls that are designed to support the reporting process and ensure that "Summary table of GHG emission" and "Water resource usage calculation result" (period: 1 April 2023 to 31 March 2024) is free from material misstatement whether intentional or negligent.

3 Assurance Practitioner's Responsibility

The responsibility of SOCOTEC is to express a limited assurance conclusion as to whether the subject matter information has been prepared in compliance with the criteria in all material respects. SOCOTEC performed limited assurance engagement in accordance with the verification procedures stipulated by SOCOTEC and "JIS Q 14064-3:2023 (ISO 14064-3:2019) Specification with guidance for the verification and validation of greenhouse gas statements" and the International Standard on Assurance Engagements (ISAE) 3000 (Revised), "Assurance Engagements Other than Audits or Reviews of Historical Financial Information" of International Auditing and Assurance Standards Board (IAASB). The procedures implemented in the limited assurance engagement are limited in their type, timing and scope as compared to the procedures implemented in the reasonable assurance engagement. As a result, our limited assurance engagement does not provide as high assurance as reasonable assurance engagement. Our procedures performed depend on the assurance professional practitioner's judgement, including the risk of material misstatement, whether due to fraud or error. Our conclusion was not designed to provide assurance on internal controls. We believe that we have obtained the evidence to provide a basis for the conclusion for limited assurance.

4 Assurance Procedures

The procedures that SOCOTEC has conducted are based on professional judgment and include, but are not limited to:

- Evaluation of policies and procedures created by the Corporation in relation to subject matter information
- Questions to the Corporation personnel to understand the above policies and procedures
- Verification that the target project meets eligibility requirements
- Matching with the basis data by trial calculation and recalculation
- Obtaining and collating material for important assumptions and other data
- Sites visited to confirm the calculation structure and procedures, data collection and implementation status of record control:

Headquarters / Head Office and Hakui Factory of EIZO MS Corporation

5 Statement of Our Independence, Quality Control and Competence

SOCOTEC has introduced and maintained a comprehensive management system that conforms to the accreditation requirements of "ISO17021 Conformity assessment -- Requirements for bodies providing audit and certification of management systems". In addition, we have also established a management system according to "ISO14065 Greenhouse gases -- Requirements for greenhouse gas validation and verification bodies for use in accreditation or other forms of recognition". These meet the requirements of International Standard on Quality Control 1 by the International Auditing and Assurance Standards Board and Code of Ethics for Professional Accountants by International Ethics Standards Board for Accountants. We maintain a comprehensive quality control system that includes ethical rules, professional standards and documented policies and procedures for compliance with applicable laws and regulations.

The SOCOTEC Group is a comprehensive third-party organisation in inspection, testing and certification operations, and conducts management system certification services and training services related to quality, environment, labour and information security in countries around the world. Engaged in performance data and sustainability report assurance of environmental and social information, SOCOTEC affirms that it is independent of the organisation that has ordered the assurance engagement, its affiliated companies, and stakeholders, and that there is no possibility of impairing impartiality or conflict of interest.

We assure that the team engaged in the assurance is selected based on knowledge, experience in the relevant industry, and the competence requirements for this assurance engagement.

6 Use of Report

Our responsibility in performing our limited assurance activities is to the management of the Corporation only in accordance with the terms for this engagement as agreed with the Corporation. We do not therefore assume any responsibility for any other purpose or to any other person or organisation.

7 Our Conclusion

On the basis of our procedures performed and evidence obtained nothing has come to our attention that causes us to believe that the subject matter information is not, in all material respects, prepared and reported in accordance with the stated criteria.

SOCOTEC Certification Japan
